

Stainless Steel Electric Boilers

Sussman SSB Boilers minimize contaminants because all-wetted metal parts are Stainless Steel. Whenever copper, iron or other materials cannot be tolerated in the steam and/or process, a Sussman SSB Stainless Steel Boiler is the product of choice for clean steam.

Designed for:

- Pharmaceutical, Chemical Process, Sterilization, Food Processing, Cosmetics, Autoclaves and other clean steam.
- Series 304 stainless steel pressure vessel. Series 316/316L pressure vessel available - consult factory.
- Passivation of pressure vessels and fittings
- Built to ASME Boiler and Pressure Vessel Codes Sect. I UL and cUL Listed. National Board registered.
- Tested to rigid Q.C. Inspection Procedures.

SSB-Standard Features

SSB Electrical Steam Boiler

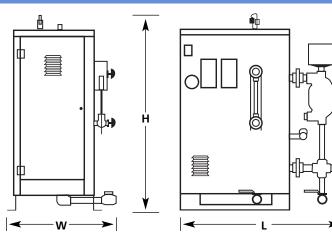

- LOW WATER CUT-OFF/LEVEL CONTROL Float type automatically maintains proper water level for safe operation and shuts off the boiler when the water supply falls below a safe level. Auxiliary low-water cut-off supplied in addition to primary control as standard
- WATER LEVEL SIGHT GLASS Permits visual observation of water level while unit is in operation.
- MAIN ON-OFF SWITCH Permits manual operation of boiler control circuit.
- STEAM STOP-VALVE Ball valve; quick closing.
- PILOT LIGHT Indicates boiler on/off condition.
- INTEGRAL ELECTRICAL CONTROL Magnetic contactors for energizing boiler elements are integrally mounted in the control unit.
- BLOWDOWN/DRAIN VALVES Permits easy blowdown and draining.
- LONG LIFE HEATING ELEMENTS Industrial Grade heavy duty 0.420 inch diameter stainless steel sheath heating elements with one piece resistance welded terminations for added life and security.
- OPERATING PRESSURE CONTROL Automatically maintains pre-set operating pressure within boiler.
- RUGGED INDUSTRIAL CONSTRUCTION
- AUXILIARY LOW WATER CUTOFF
- PASSIVATION PER QQ-P-35 STANDARD
- NEMA 1 Louvered enclosure standard
- LINE PRESSURE WATER FEED used when incoming water pressure is at least 10 PSIG higher than operating pressure.

Meeting Code Requirements

- Built to ASME Section I for max 100 PSIG. Vessel National Board Registered. Code E certified
- Electrical construction conforms to NEC requirements.
- UL and cUL Listed.

Safety Features

- STEAM SAFETY VALVE ASME Code Safety Valve automatically opens to reduce pressure.
- STEAM PRESSURE GAUGE Allows visual observation of steam while unit is in operation.
- MANUAL RESET PRESSURE CONTROL Provides high limit pressure cut-off with manual reset feature.

Boiler Model	кw	BHP	Lbs. Steam /Hr. ##	3 Phase Voltage#	Total Amperage	Inches W L H	Ship Wt.

SSB-180	180	18.4	542	240 480	434 217	30 36 61	790

* Single phase available # Other voltages available

With 50°F feedwater

NOTES: • All wetted metal parts are stainless steel.

- Consult factory for specific wetted parts materials.
 Allow 21 inches for heating element removal. When ordering: Specify model number. kw, volts, phase and optional equipment.
- Minimum of 1 meg ohm-cm specific resistivity feed water must be used for proper & safe boiler operation
